

TOWN OF TERRY SURVEY

The Town of Terry is looking for community input on issues that may be important to you and determine the future of our town. We are hoping to get people involved in helping the council set priorities as we begin working on our upcoming budget. As you may know some things are dictated by laws and regulations and must be addressed by the council. Other items are important to a community as ways of bringing people to our town. Finally some issues have become areas of concern within the community. Following is a list of items or issues we would like your input on. Please check at least 3 things that are important to you or to your community and that you would like to see addressed by the town. Also recognize that some items have significant cost so the Town would have to find ways to fund those things. (Loans, grants, fees, increased taxes) Please drop off at town hall or mail to the Town of Terry by APRIL 20, 2018. Our address is Box 650, Terry, MT 59349.
